Keeping this view of empowering students and the faculty with the global ambience in academics and their overall growth, the sponsoring KLE Society thought of achieving University status. The effort started a decade ago and as another feather 'KLE Academy of Higher Education and Research' has been accorded University status by the Department of Secondary & Higher Education, Ministry of Human Resource Development, Government of India on the advice of the University Grants Commission (vide their letter no. KLE V.K. Institute of Dental Sciences, Belgaum

Since 1985.....

B R I E F H I S T O R Y

Dental Science is an area that has gained tremendous recognition in recent years. The ratio of qualified Dental Surgeons was very low as compared to other Medical Faculties. This prompted the K.L.E. Society to establish a Dental College, one that would serve the populace in the states of Karnataka and Maharashtra.

The KLE V.K. Institute of Dental Sciences was thus set up in August, 1985, within the vast 113 acres campus of the Jawaharlal Nehru Medical College. The Institute got off to a flying start, under the leadership of Late Dr. S. S. Khera, its first Principal.

The Dental Council of India gave approval for the BDS course in 1989 and since then the Institute has come a long way and has gained numerous accolades.

The K.L.E. Society started Post-Graduate courses in Dentistry in the year 1990. Today it exalts in rendering Masters Degree in all branches of the Dentistry. All the courses are approved by the Dental Council of India.

Today, the Institute boasts of an accomplished faculty and numerous departments. All the laboratories and clinics are spacious, well furnished and have every sophisticated equipment and gadget – both indigenous and imported to facilitate an excellent environment that is conducive for learning.

In keeping with a fine tradition that fosters professional education, the Institute has distinguished and experienced faculty. The institute has a young and dynamic Principal, Dr. K. R. Indushekar, under whose leadership the college is rising to newer heights. Each member of the faculty has had extensive academic experience ensuring that the education imparted is of the highest professional standard. Additional space of Clinical departments and teaching areas and a New Library have been added. The entire gamut of Dental Science is covered from basic degree course to post-graduate courses.
